POLICY

Vision for digital learning at our school

The use of digital technologies is a mandated component of the Victorian Curriculum F-12.

Safe and appropriate use of digital technologies, including the internet, apps, computers and tablets, can provide students with rich opportunities to support learning and development in a range of ways.

Through increased access to digital technologies, students can benefit from learning that is interactive, collaborative, personalised, engaging and transformative. Digital technologies enable our students to interact with and create high quality content, resources and tools. It also enables personalised learning tailored to students' particular needs and interests and transforms assessment, reporting and feedback, driving new forms of collaboration and communication.

Corryong College believes that the use of digital technologies at school allows the development of valuable skills and knowledge and prepares students to thrive in our globalised and inter-connected world. Our school's vision is to empower students to use digital technologies safely and appropriately to reach their personal best and fully equip them to contribute positively to society as happy, healthy young adults.

Student Laptop Program at Corryong College

Parents/carers are invited to purchase a device for their child to bring to school. Corryong College has made special arrangements with Zarbtech who offer discounted prices for the purchase of Dell devices for our students. Zarbtech offer parents the opportunity to pay in full or utilise their interest free loan option. Parents/Carers are encouraged to contact the school should they require any financial assistance or if they would prefer their child to utilise a Corryong College laptop provided for free by the school.

Students are required to bring their device to school each day to be used during class time for learning activities. When bringing their own device to school, students should ensure that it:

- Is fully charged each morning
- Is brought to school in a protective case
- has available storage to complete class work

Please note that our school does not have insurance to cover accidental damage to students' devices, and parents/carers are encouraged to consider obtaining their own insurance for their child's device through Dell Pro Support.
Students, parents and carers who would like more information or assistance regarding our Student Laptop Program are encouraged to contact the school office.
